MISCONCEPTIONS OF VACCINES

Vaccines are one of the greatest public health achievements of modern medicine. The following are some of the common misconceptions regarding vaccines.

MISCONCEPTION #1
Vaccines cause autism

MISCONCEPTION #2
An infant’s immune system becomes overwhelmed and cannot handle the number of vaccines given

MISCONCEPTION #3
Natural immunity is better than vaccine-acquired immunity and vaccines are more dangerous than the diseases they prevent

MISCONCEPTION #4
Vaccines can cause the disease that they are trying to prevent

MISCONCEPTION #5
Vaccines contain harmful toxins
